Summary of Distribution and Uses of NSP Funds:

Administration Funds: \$262, 542.40

Nevada Housing Division: \$2,597,861.59- Will use for Acquisition Rehabilitation activities and new construction activity.

Lyon County: \$591,727.46 - Will administer a Homebuyer program.

RNDC: \$921,486.46 - Will administer a Homebuyer program.

Clark County: \$500,000 - Will use for land banking.

Washoe County: 550,000 - Will use for Acquisition Rehabilitation and Multi-family New Construction.

SNHRA-Amendment

Expanded Buena Vista Springs Target Area for Acquisition Rehab for Rental.

New Neighborhood ID 4590332

Property acquisition continues to be a challenge due to limited inventory as well as high levels of buyer competition. According to a Zillow report (September 2012), homes listed for sale in the Las Vegas market fell by 35% from September 2011 to September 2012. Although inventory nationally fell 19% during that same time period, Southern Nevada has experienced significantly higher declines in inventory than the national average at 35%. Cash investors have also dominated this market according to an analysis completed in August 2012 by the John Burns Real Estate consulting group as reported on DSNews.com. According to that report, cash investor purchases account for 50% of all home acquisitions in Las Vegas. It appears that those cash investors are driving what is seen as current market recovery due to fact that the unemployment rate for the state of Nevada remains high (13.2% as of March 31, 2012 according to HUD's U.S. Housing Market conditions report). The UNLV Center for Business and Economic Research report on Housing Market Conditions in the second quarter of 2012 show continued decline in the MLS-listed inventory for single family homes. Across the entire Las Vegas region, the number of homes on MLS decreased by 12% from January to June of 2012. The time inventory is on the market has also decreased-almost 50% of all homes sold were on the market for less than thirty days.

The State extended the target area to areas north of existing target area boundaries. The area will border along W. Cheyenne, Clayton Street, Revere Street, and West Craig Road. NSP3 activities will leverage other Federally-funded activities located within or in close proximity to the target area. The proposed expanded area is very similar to the original target area in terms of property types, age and conditions and residents have access to the same neighborhood assets.

This amendment was publicly notice in the Las Vegas Review Journal on November 1, 2012 and comments were accepted through November 19, 2012. No comments were received. A copy of the amendment can be seen on Nevada Housing Division's website at www.nvhousing.state.nv.us. SNRHA amendment.

Mobile Home Park-Amendment

New Neighborhood ID 8581939

On November 2, 2012, NHD initiated a Request for Proposal for the use of \$1,600,000 in NSP 3 funds. NHD had hoped to use \$1,000,000 of NSP3 funds for acquisition/rehab/resale of single family homes but due to lack of inventory and interest for the activity NHD was unable to initiate this activity. The remaining \$600,000 was going to be used on a new construction multi-family project, however, the developer of the project decided to use other funding sources leaving NHD with \$1,600,000 to expend in another project. NHD received four proposals and the project showing the greatest need and the ability to complete the project in the timeframe required was selected. The project selected is a redevelopment project qualifying under NSP 3 eligible use E, and will provide additional affordable housing opportunities for low-income senior citizens. All units will be rented to households at or below 50% of area median income (AMI) in order to assist with meeting the NSP 3 requirement of the 25% set aside.

Southern Nevada Regional Housing Authority (SNRHA) was selected as the sub-recipient. SNRHA has a great deal of experience and they will be able to complete a project which has been vacant. This project will provide both an area benefit as well as direct benefit. It will stabilize the neighborhood as well as provide a stable living and permanent living environment for project beneficiaries. Phase I of the Rulon Earl

Mobile Manor has been occupied since 1979 and is occupied by senior citizens ages 55+ as part of the SNRHA Affordable Housing program. The Phase II site pads have been vacant since 2008. Vacant land can be a detriment to surrounding residents due to the potential negative effects of illegal dumping, vandalism and trespassing. Redevelopment of these vacant pads will not only provide additional housing opportunities but also provide enhanced security and comfort for the existing residents of Phase I as well as stabilizing effect for the greater surrounding community.

This amendment was publicly notice in the Las Vegas Review Journal on November 30, 2012 and comments were accepted through December 17, 2012. No comments were received. A copy of the amendment can be seen on Nevada Housing Division's website at www.nvhousing.state.nv.us. Amendment Mobile Home Park.

A third amendment was published on June 11, 2013, showing an increases to Washoe County and Rulon Earl Manor and a decrease in Lyon County and administrative funds. Lyon County decided to terminate their program because of the lack of eligible foreclosed homes and did not want the State to risk losing funding. Washoe County's new construction project came in over budget and therefore, they needed to cancel the Acq/Rehab/Rental project and move the funds into the new construction project. Additional funding was allocated to Rulon Earl project. This amendment was posted on Nevada Housing Division's website.

How Fund Use Addresses Market Conditions:

NHD analyzed its single family and multi-family portfolios to identify areas with high rates of loan defaults and rental properties with high vacancy rates. This information was used to gain information on single and multi-family properties that may be located in high foreclosure areas and/or be negatively impacted by the current housing market crisis. The goal is to turn neighborhoods around by acquiring foreclosed homes and selling or renting them.

Ensuring Continued Affordability:

Long-term affordability shall be in accordance with the HOME program standards at 24 CFR 92.252(a),(c), (e), and (f) for rental properties and 24 CFR 92.254 for homeownership housing.

In addition, to secure these periods of continued affordability the State will require each sub-grantee, direct sub-recipient, developer, and homebuyer to execute a contract that identifies the period of continued affordability for the specific project and incorporates resale or recapture provisions should the government entity, organization, or individual transfer title of the property before the expiration of the continued affordability period.

For all properties acquired with NSP funds, the State will require the recordation of a Deed of Trust and/or Land Use Restriction Agreement that outlines the above terms.

Definition of Blighted Structure:

Blighted Structure is defined based on Title 18, Chapter 231, in the Nevada Revised Statutes that defines a blighted urban area. Combining this definition with the definition of "structure" provides the definition of "blighted structure." A "blighted structure" is a structure that is used or intended to be used for residential, commercial, industrial or other purposes, or any combination thereof, which is unfit or unsafe for those purposes and is conducive to ill health, transmission of disease, infant mortality, juvenile delinquency or crime because of one or more of the following factors:

1. Defective design and character of physical construction;
2. Faulty arrangement of the interior and spacing of buildings;
3. Overcrowding;
4. Inadequate provision for ventilation, light, sanitation, open spaces and recreational facilities; and
5. Age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses.

Definition of Affordable Rents:

The local definitions for non-entitlement communities are included below. Definitions of "affordable rents" for entitlement communities are included in their Substantial Amendments or Action Plans.

For rents below 80% of median income the program will follow the HOME program standards at 24 CFR 92.252 (a), (c), (e), and (f).

Affordable rents for units designated for households with incomes below 50% of AMI will be no more than 30% of 50% of AMI, adjusted for unit size. Such rents may be increased annually after HUD updates fair market rents and median incomes.

Gross rental rates for affordable rental housing for households earning between 80% and 120% of the area median income may charge fair housing rents for each county in which the housing is located as adjusted for family size.

Gross rents shall include contract rent and utilities. If the tenant pays utilities, a utility allowance must be subtracted from the maximum allowable rent to determine the maximum contract rent.

Housing Rehabilitation/New Construction Standards:

Housing acquired and rehabilitated with NSP funds will be required to meet local building code standards for the jurisdiction within which the property is located. In addition, each home and rental unit will be evaluated for opportunities to improve the energy efficiency of the unit balancing costs of such activities against the benefit of the improvement

Vicinity Hiring:

The Nevada Housing Division will require, through its contracts, as applicable, that sub-recipients, developers, and other covered entities give preference to Business Concerns and/or qualified residents that reside within the NSP3 target area when hiring additional workers or contracting for services. Part of this requirement will be issuing bid notices and employment notices in local areas and/or disseminating this information through Community Action Agencies or non-profit agencies that operate within the target area.

Procedures for Preferences for Affordable Rental Dev.:

The Nevada Housing Division supports the development of new and preservation of existing rental housing for low and moderate income households as evidenced by funds appropriated to NSP3 housing activities in Washoe and Clark Counties. In addition, should housing acquired through the NSP3 program for resale not sell at reasonable prices (i.e. the cost of acquisition plus rehabilitation plus developer fee), the State will give preference to renting these homes to eligible households.

Progress Toward National Objective Targets

National Objective	Target	Actual
NSP Only - LH - 25% Set-Aside	\$1,250,000.00	\$3,677,348.24

Overall Progress Narrative:

This has been a very successful quarter for the State's NSP 3 program. Washoe County's project is almost complete and was planning to get the Certificate of Occupancy's this quarter, but had a few work order changes,

therefore, it appears that it will be complete next quarter. Southern Nevada Regional Housing Authority did not complete any new units this quarter as they are in the process of purchasing more manufactured homes. They have completed fourteen (14) State units and have completed about the same number for Clark County.

Over all the NSP 3 program has completed forty four (44) homeownership opportunities for families, fourteen (14) new construction units for seniors/disabled and two (2) acquisition/rehabilitation/rental units.

Of the sixty (60) households assisted, four (4) households have incomes at or below 30% of area median income, twenty nine (29) households have incomes between 30%-50% of area median income, twenty two (22) households have incomes between 50%-80% incomes and five (5) households had incomes between 80%-120% of area median income. This program has assisted nineteen (19) female head of households and ten (10) disabled households.

The Division continues to take steps to ensure that the 100% expenditure requirement will be met by March 1, 2014. All of the recipients of NSP 3 funds have been made sure that they were able to meet the deadline, or relinquished part of their allocation so that the State could adjust its budget to make the deadline.

Southern Nevada Regional Housing Authority has had the most Section 3 hires this program. This quarter they were able to hire three Section 3 eligible employees for their NSP program. The three employees were general laborers.

Administrative funds to be expended for the implementation and administration of grant awardS from NHD to Southern Nevada Regional Housing Authority.

Location Description:

Neighborhood #8581936 as reflected on HUD's mapping tool. 3903 E Stewart Avenue, Las Vegas, NV

Activity Progress Narrative:

Southern Nevada Housing Authority (SNRHA) has two projects with the Division. NV-1102-8 has been completed and all administrative funds (\$29,126.91) for that project have been drawn. SNRHA has been working diligently on completing the Rulon Early Mobile Manor. They drew administrative funds down for this project for staffing costs related to this project.

Activity Description:

Administrative funds to be expended for the implementation and administration of grant award from NHD.

Location Description:

Washoe County Target Area - Neighborhood #3823211 as reflected on HUD's mapping tool.

Activity Progress Narrative:

This quarter saw a variety of administrative activity. As the Zephyr project started to wind itself down on the construction phase, the verification and the processing of outstanding billings on the contract has been on the upswing. The fiscal compliance officer has been reviewing invoicing and billing from the general contractor, and approving payments. The Community Services Department program officer has been spending time at the Zephyr site and in the office reviewing the progress of the construction, working with the architect to verify and approve completion percentages and authorize payments. The CSD officer has also been working on the various construction issues (change orders) on a flow basis. During this quarter there also has been the development of the lease, rules and regulations for the tenants of the Spokane property, a tenant selection plan, marketing and outreach to those groups least likely to apply to be tenants by the program team. There has been property management work by the Community Services Department, and continued work on the program manual and application process and forms by the Social Services program officer as well as ongoing HUD sponsored training including the completion of a HDFP certification. Program staff has also been working closely with HUD provided technical assistance in reviewing program requirements and continuing the planning for the long term operation of the units.

Southern Nevada Regional Housing Authority	\$605,194.64	\$1,591,474.36
Match Contributed	\$0.00	\$0.00

Activity Description:

This activity will be a redevelopment project. The project is the second Phase of Rulon Earl Mobile Manor. Phase I of the Rulon Earl Mobile Manor has been occupied since 1979 and is occupied by senior citizens ages 55+ as part of the SNRHA Affordable Housing program. The Phase II site pads have been vacant since 2008. Redevelopment of these vacant pads will not only provide additional housing opportunities but also provide enhanced security and comfort for the existing residents of Phase I as well as stabilizing effect for the greater surrounding community. SNRHA will purchase new manufactured homes and have them placed on the site pads. This project will provide both an area benefit as well as direct benefit. It will stabilize the neighborhood as well as provide a stable living and permanent living environment for project beneficiaries.

Location Description:

The project is located at 3903 E. Stewart Avenue. Near U.S. 95 and Stewart. APN#140-31-303-003 HUD Neighborhood ID #8581939

Activity Progress Narrative:

The last QPR NHD was inadvertently given manufactured homes to report that were actually going to be reported on by Clark County, as this project is funded by both entities. The demographics have been adjusted, however, the actual unit numbers cannot be revised. Therefore, the units that have been completed are listed as follows: #78, #81, #82, #85, #87, #92, #95, #102, #103, #104, #105, #106, #107 and #109.

Southern Nevada Regional Housing Authority continues to make steady progress on their Rulon Earl Mobile Manor. More manufactured homes have been purchased, set up and completed. Their waiting list for these units increases daily. They will be ordering their remaining manufactured homes next quarter and will meet their expenditure deadline. This project has been a great addition to the neighborhood. Without the use of NSP funds, this project may have never been completed. SNRHA had three new Section 3 hires this quarter. All three new hires were hired to assist with the installation of the manufactured homes and overall construction of the project.

Match Contributed	\$0.00	\$0.00

Activity Description:

Through this program the Nevada Housing Division work with the Southern Nevada Regional Housing Authority, to acquire, rehabilitate, and rent single family homes within the targeted area. The Housing Authority has demonstrated ability to administer and operate a scattered-site acquisition, rehab, and rental program and would not be subject to selection through the Request for Proposals/Qualifications process.

Properties in this target areas have values below \$100,000 and RealtyTrac indicated that 1 of every 39 households in North Las Vegas received a foreclosure filing in December 2010.

All homes acquired will be made more energy efficient.

Location Description:

Buena Vista Springs (BVS) Target Area - Neighborhood #6232788 and Neighborhood 4590332 (see Amendment SNRHA) as reflected on HUD's mapping tool. This area, located within the City of North Las Vegas, has been greatly impacted by the current housing crisis with both single family and large multi-family projects in foreclosure. Adding to this is the fact that many families have abandoned their homes leaving behind blighted areas.

Activity Progress Narrative:

This activity has submitted all of their draws and will be closed. The remaining funds that were allocated to the project will still be allocated to Southern Nevada Regional Housing Authority, however, they will use them on their Rulon Earl project. The budget will be adjusted after submission of this QPR. This project enabled the Housing Authority to purchase two homes for their rental housing portfolio. Both families that are renting the units are below 50% of median income and was a single mother.

LYON COUNTY	\$0.00	\$291,729.46
Match Contributed	\$0.00	\$0.00

Activity Description:

During NSP1 an effective Homebuyer Assistance program was implemented by Lyon County. Given the success of this effort, the NHD is proposing to provide funds to Lyon County so it can continue to provide eligible homebuyer costs to eligible homebuyers.

This program will assist qualified households to purchase, and rehabilitate if necessary, homes currently owned by the banks as a result of foreclosure through the provision of soft second loans. The neighborhood identified is significantly impacted by the incidence of foreclosures.

Homebuyers must complete homebuyer counseling prior to receiving the NSP3 down payment assistance. All homes purchased must meet NSP3 requirements for a minimum 1% discount of the current market appraised value.

Households receiving down payment assistance will be required to sign a loan document which includes information on the interest rate of the loan, if any, repayment terms, and affordability period requirements. HOME affordability periods will be followed.

Location Description:

1) Fernley Target Area - Neighborhood ID #7262756 Located in Lyon County, Fernley has been hard hit by the foreclosure crisis. The NHD is specifically targeting an area within Fernley bounded on the north by US 50, the west by State Route 95A, the south by Desert Shadows Road, and the east by US 50. According to HUD data, this area has a NSP3 need score of 18, above the state minimum threshold score of 17. There are over 3,000 housing units in this area of which 15.8% are 90 or more days delinquent on their mortgage or in foreclosure. Between July 2009 and June 2010 234 housing units were Real Estate Owned (REO) properties. Housing prices have decreased by approximately 29% since their peak value and unemployment in the area has increased from 5.5% in June 2005 to 18.3% in June 2010 (based on Bureau of Labor Statistics Local Area Unemployment Statistics).

During NSP1 an effective Homebuyer program was implemented by Lyon County. Given the success of this effort, the NHD is proposing to provide funds to Lyon County so it can continue to provide Homebuyer assistance to eligible homebuyers.

Activity Description:

This program will assist qualified households to purchase and to provide rehabilitation, if necessary, to homes currently owned by the banks as a result of foreclosure through the provision of soft second loans. The neighborhood identified is significantly impacted by the incidence of foreclosures.

Homebuyers must complete homebuyer counseling prior to receiving the NSP3 down payment assistance. All homes purchased must meet NSP3 requirements for a minimum 1% discount of the current market appraised value.

Households receiving down payment assistance will be required to sign a loan document which includes information on the interest rate of the loan, if any, repayment terms, and affordability period requirements. HOME affordability periods will be followed.

Location Description:

Pahrump Target Area - Neighborhood ID#1607543 and #4290405 as reflected on HUD's mapping tool is located within Nye County, the City of Pahrump enjoyed economic and population growth during the latter 20th Century. However, as the housing bubble burst and the economy in the Las Vegas valley went into decline so did this once thriving area. Like the other NSP3 target areas, the Pahrump Target Area has a high NSP3 need score. It also is similar in that there has been a substantial fall in home values and an increase in the number of REO and abandoned properties. During the past year alone, there have been over 180 foreclosure starts and over 16% of properties are 90 or more days delinquent on their mortgage or in foreclosure. The specific areas within the City of Pahrump that will be targeted are: Area #1 bounded on the north by Route 372, the west by S. Barney Street, the south by Gamebird Road, and the east by Route 160 and Mandy Avenue. Area #2 bounded on the north by Highway 160, on the east by Highway 160 and Hafen Ranch Road, on the west by Homestead Road, and on the south by Kellog Road. Given the large number of abandoned and foreclosed properties in these areas, the NHD will use NSP3 funds to support a DPA program for eligible homebuyers. A similar program was operated in NSP1, although in a broader area, and had success.

Activity Progress Narrative:

Rural Nevada Development Corporation did not expend any NSP 3 funds this quarter. They looked at five foreclosed homes in Pahrump this quarter. An offer was made on one of them and it was rejected. It is becoming increasingly difficult to purchase foreclosed homes that meet NSP 3 requirements as investors can purchase the homes very quickly with cash. The remaining funds will be reallocated to Southern Nevada Regional Housing Authority for their Rulon Earl Mobile Manor project. Adjusted Single Family Units and Housing units by 1.

CLARK COUNTY-COMMUNITY RESOURCES	\$0.00	\$500,000.00
Match Contributed	\$0.00	\$0.00

Activity Description:

The purpose of this activity is to provide State NSP funds to the City of North Las Vegas to be used towards acquiring the property. The City of North Las Vegas has designated other NSP funds to assist with the acquisition of the property, the demolition of the buildings and the relocation of current tenants. The property will be acquired, demolished, and the land banked until an appropriate affordable housing redevelopment project can be undertaken. Demolition of these structures will result in immediate elimination of blight, reduced crime, increased health and safety, and stabilization of two adjoining low income housing tax credit developments regulated by the Nevada Housing Division.

Approximately 65% of households have incomes at or below 80% of area median income. Clark County, within which the City of North Las Vegas is located, has a current unemployment rate of 15.6%. In terms of housing, the Las Vegas metro area has seen over a 50% decrease in home values since the peak value in the early 2000s. Of the households that received a mortgage between 2004 and 2007, 41.1% received high cost mortgages. This makes it more likely that a homeowner may default.

Once a project has been identified for construction, the City of North Las Vegas will set aside eight (8) units in the redeveloped project for households with incomes at or below 50% of AMI in return for the State's NSP3 investment. When developed, the State will enter into a contract with the City of North Las Vegas and/or Land Use Restriction Agreement that outlines the affordability period requirements. HOME affordability periods will be followed. This project meets the NSP3 preference for rental housing.

Location Description:

Buena Vista Springs (BVS) Target Area - Neighborhood #6232788 as shown on the HUD Mapping Tool. This area, located within the City of North Las Vegas, has been greatly impacted by the current housing crisis with both single family and large multi-family projects in foreclosure. Adding to this is the fact that many families have abandoned their homes leaving behind blighted areas.

The specific area that will be addressed is bounded on the north by Cartier Street, the west by Clayton Street, the south by W. Carey Avenue, and the east by Revere Street. HUD data shows that this area has a NSP3 need score of 20.

Activity Progress Narrative:

This project is complete.

WASHOE COUNTY COMMUNITY DEVELOPMENT	\$102,447.93	\$550,000.00
Match Contributed	\$0.00	\$0.00

Activity Description:

After acquiring three parcels with NSP3 funds, Washoe County will construct an energy efficient duplex on each parcel. There will be six units in total, with the State reporting on two of them. The County will be the owner and operator of these units. The units will be made available to low income families. The tenant pool is expected to largely be drawn from existing programs being implemented concurrently by the Washoe County Social Services Department. The affordability period on the property will be set at a minimum of 20 years and secured through a Land Use Restrictive Agreement.

Location Description:

The vacant parcels are on Zephyr Way in the City of Sparks in the northeast corner of the target neighborhood. They are located directly adjacent to and north of Oppio Park, Sparks Middle School and Risley Elementary School. Within 1 mile of the area is a broad variety of services. Transit is available within a half mile.

Activity Progress Narrative:

At the beginning of this quarter, the foundations had been laid and the exterior shells were in various degrees of completion. Construction continued rapidly and by the end of the reporting cycle the three duplexes were materially complete. The project was originally projected to be complete during the week of December 14, but there were several change orders which pushed out the completion date by a month. The County is expecting to receive the Certificate of Occupancy on January 22, 2014. The unit demographics will be reported next quarter.
